

AUTURETEX

KNIT WITH CARE. DYED WITH PRECISION. FINISHED TO PERFECTION.

THAILAND'S
KNIT FABRIC
SOLUTION

WHO WE ARE

Futuretex is a vertically integrated knit fabric manufacturer based in Thailand, providing complete in-house knitting, dyeing, and finishing solutions.

With over 30 years of expertise, we specialize in high-quality, reliable fabrics tailored for fashion, activewear, uniforms, and children's apparel. Our flexible production model allows us to serve both domestic and international brands — ensuring consistency, traceability, and customization across every step.

- ★ Family-owned and operated
- ★ Fully produced in Thailand
- ★ MOQ flexibility for sampling and scaling
- ★ Trusted by OEMs and direct brand clients

FUTURETEX

MISSION: TO PROVIDE EXCEPTIONAL, SUSTAINABLE KNIT FABRICS WITH CONSISTENCY, CARE, AND INNOVATION—EMPOWERING OUR CLIENTS TO CREATE GARMENTS WITH CONFIDENCE.

VISION: TO LEAD THE TEXTILE INDUSTRY IN SOUTHEAST ASIA AS THE GO-TO PARTNER FOR HIGH-QUALITY, TRACEABLE, AND RESPONSIBLY MADE KNIT FABRICS.

KNITTING CAPABILITIES

We offer a wide range of circular knit fabric styles to suit all apparel needs from soft, lightweight jerseys to structured ribs and cozy brushed fleece.

- Fabric Types: Single jersey, rib, interlock, fleece, pique and etc.
- Yarn Options: Cotton, bamboo, recycled polyester, polyester, and cotton/poly blends
- Formats: Available in both tubular and open-width construction

Our team collaborates with you to select the most suitable fabric structure and yarn to meet your design and performance requirements.

Lab Dip Services:

- Fast turnaround (1–3 working days)
- Color-matching

Production Dyeing:

- Reactive dyeing for cotton and other natural fibers
- Disperse dyeing for synthetics and blends
- Rib collar and cuff dyeing available

Quality Assurance:

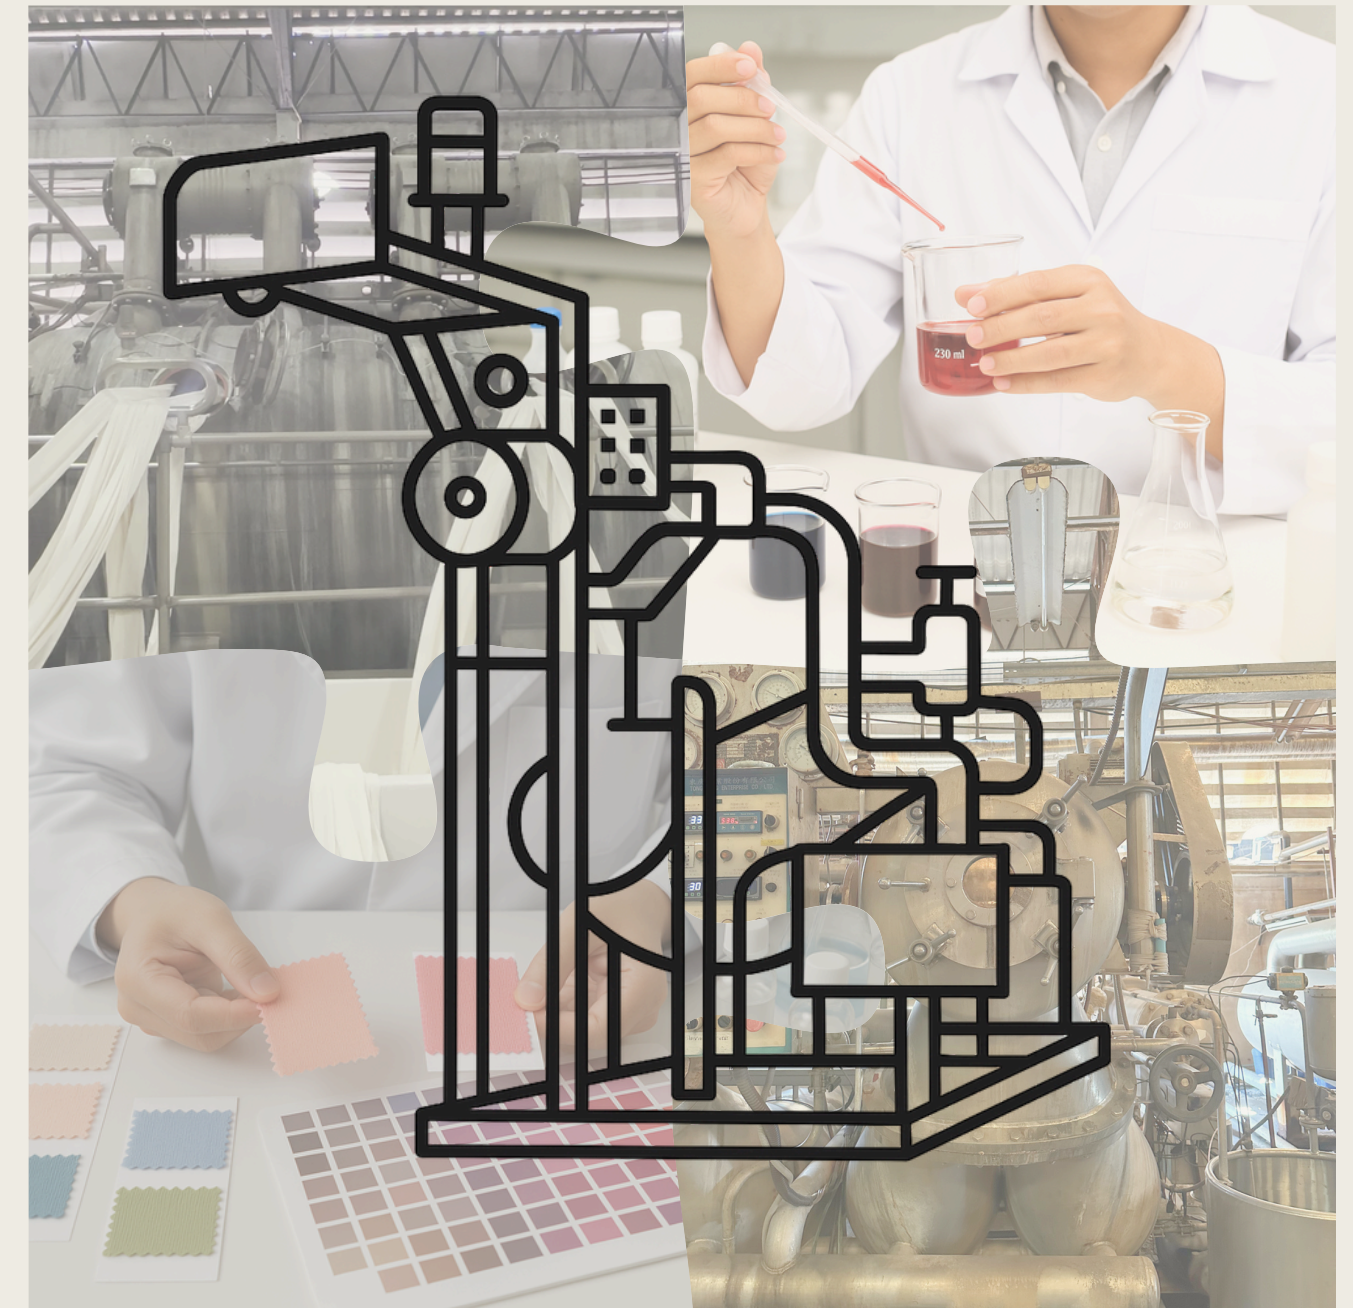

- Inline monitoring of pH, temperature, and pressure
- Shade band approval and batch record documentation

Sustainability:

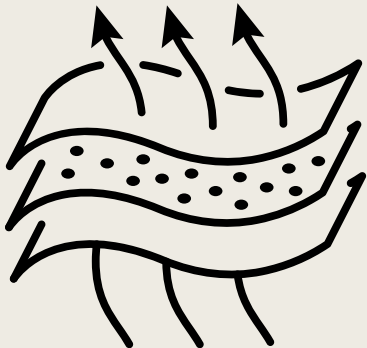

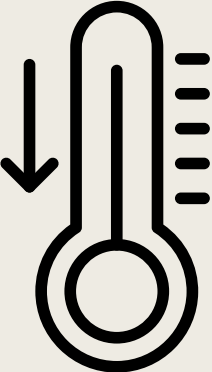

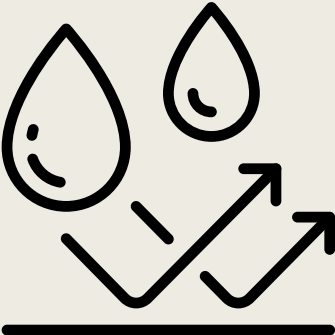

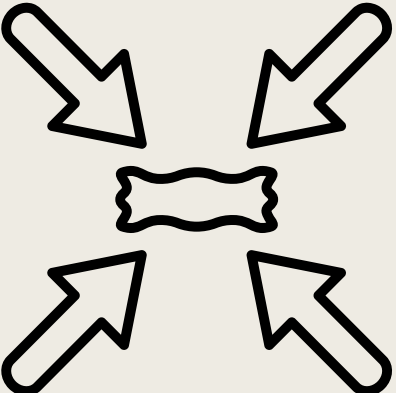

- On-site wastewater treatment
- Support for low-impact dyes and GRS-compliant options on request

DYEING SERVICES

FUTURETEX

OUR DYEING SERVICES ARE DESIGNED FOR COLOR PRECISION, REPEATABILITY, AND SPEED SUPPORTED BY IN-HOUSE LAB DIPS AND QUALITY CONTROL.

	performance finishes	
		
	control shrinkage control twist	
		soft touch

FINISHING SERVICES

Our finishing services are designed to enhance fabric texture, improve performance, and prepare each roll for your next production stage.

Finishes Offered: Brushed finish, soft-touch, Shrinkage and twist control

Functional Add ons: Anti-bacterial, Anti-pilling, Moisture-wicking

Quality Control & Packing: 100% roll-by-roll inspection after finishing
Roll packing with barcode traceability system

Every fabric roll is finished with consistency, comfort, and durability in mind ensuring production-readiness and end-use satisfaction

SUSTAINABILITY IN ACTION

- **Sourcing:** Recycled, biodegradable, and low-impact yarns
- **Biomass Heating:** Using sawdust, a by-product of wood waste, as our primary heating fuel. An eco-friendly alternative that supports circular economy practices
- **Waste Reduction:** ReLoop program to revive leftover fabric
- **Water:** Internal treatment system to minimize environmental load

We believe sustainability is a journey, and we're committed to improving every step of our process.

WHY WORK WITH FUTURETEX

PARTNER YOU CAN RELY ON

- Full in-house process = quality control
- Local production = faster lead times, non-China origin availability
- MOQ flexibility = great for sampling & scaling
- Collaborative team = technical support & development help

We're not just a fabric producer, but your partners in creating better textiles.
